

Oct 20, 2010

Dear Nancy,

What a blessing receiving your box of excellent materials. I have Elements of Government open on my desk and read a little at a time enjoying it tremendously. Listen Nancy, don't you know that, I am learning things I did not know. You know I did not have a lot of time to learn the right things in my former life, which started very very young. I have had plenty of education since, however it has all been related to Christian growth and ministry, addiction studies, etc, etc, etc. You get the point I'm sure.

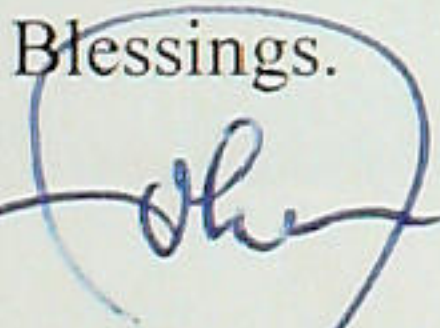

There are times when there have been political discussions about the House, congress etc and I had no idea how all that worked and still have to ask my Eileen when we are home checking the mess we are in regarding who's who and how it works. Doesn't do me much good now since I've got so much other info I have to retain which is important to the lives of others. It's great Nancy.

How does it all work together best since I believe it is part of our responsibility to upgrade their educational so they can be on level ground with others. Ask kids who the President or V.P. is and it is surprising the answers you get. So we are not narrow in our planning for the women.

The books you sent did not include English, Composition, and Grammar etc. What are the books you have in addition to what you sent???? Please send me a list if there are others. You sent biology, physics and chemistry, algebra and the teacher's resource for algebra. And the one I'm reading on government. You've created greatly needed material. And how it all started is just the way God sometimes gets us involved where we belong.

Thank you. Say hello to your husband. I look forward to our working together in the future.

Blessings.
