

Dear Sirs,

6-27-10

This might sound a little strange, but I am in a Texas State Prison. I tutor in a GED class, and I ran across a sample text book for Algebra. I believe it was ~~for~~ written for a lower level. Anyhow the book was ~~so~~ great. In prison we can't take text books out of the school house, and there is a lot of inmates that want to learn but can't get into the school because of the ~~long~~ length of their sentence. I was hoping that there might be a way to get a few of your sample books, that are at a High School or College level. Money is a hard thing to get in prison, but I could afford like \$10.00 if that might help. I hate to have to ask like this, but it's all I can do is try so I do. If you can't help us we understand, not many do.

Thank You in advance for anything you might do

Dear Dr. Nancy Nichols

I can't put into words the shock and joy that I felt when I recieved your package. For someone like you to take the time in your life to help someone like me. I help three other inmates here presently (they move us around alot), we will work through both books cover to cover. I will write again once we have finished, and let you know if we found any errors. I will also take the information (order form), and encourage the School House here to order. Not sure if I mentioned it before, but I was a tutor for the GED class here. I lost the position when we lost our teacher. I am currently trying to get the job back. My bad luck is jobs in prison are not given out based on skills, wants, or passion to do the ~~job~~ job. Please feel free to write me anytime, your letter was a very welcomed letter.

Thank You Very Much

Robert Bullwinkle
